

LEGO SET 88004-1 - Power Functions Servo Motor

Drive your LEGO® Technic creations to a whole new level with the LEGO Power Functions motor made for the ultimate 4-wheel steering experience. Power through the turns like never before with ultra-realistic steering. Steer your Technic vehicle left, right or straight ahead with any one of 15 steering axle positions. Rotates 90 degrees clockwise or counterclockwise. It's easy to add 4-wheel steering to your models with the Servo Motor's front and back power outputs!

- Servo Motor features 90-degree rotation clockwise or counterclockwise
- Designed for use with LEGO® Technic elements and vehicles
- Includes front and back power output ports for easy 4-wheel steering functionality
- Steer 90 degrees in either direction with a total of 15 fixed positions!
- Requires a Power Functions Battery Box (sold separately)
- Add 4-wheel steering functionality to your models!

LEGO SET 8883-1 - Power Functions M-Motor

Build an extra medium-strength, medium-sized M-Motor into your LEGO® creations and watch things start moving!

- Use the M-Motor for speed.
- Requires battery box (Item #8881, #8878 + #45517, or #88000), not included.

LEGO SET 88003-1 - Power Functions L-Motor

Motorize your large LEGO® builds with LEGO® Power Functions elements! Bring your creations to life by powering them with the large L-Motor. Spin wheels, turn gears and get your models moving! Designed to fit-and-lock onto LEGO Technic pin and axles.

- Features the 380 rpm speed L-Motor for animating larger models
- Designed for use with LEGO® Technic elements
- Requires a Power Functions Battery Box (sold separately)
- Add movement to your models!

LEGO SET 8882-1 - Power Functions XL-Motor

Add an extra XL-Motor to your LEGO® creations! This super-strong motor will give plenty of power to your models, whether it's spinning a wheel or turning a system of gears.

- Use the "XL" Motor to animate larger builds.
- Requires battery box (Item #8881), not included.
